

# LIQUID FEED?

Thought about...

**CONDENSED  
DISTILLERS  
SYRUP**

## Product benefits

- High energy of 15 - 16 mj/Kg DM due to high carbohydrate (starches, sugars and other carbohydrate products) and fat contents in combination with low fibre.
- Protein at around 17 percent DM basis.
- Very palatable.
- Is readily available year round for delivery in bulk tanker loads or 1000 litre IBC units.

Try the cost effective, balanced liquid feed to compliment high fibre pasture and feed

Simple to handle and feed in-shed, in troughs, TMRs...
